

Alien Story

An extraordinary event unfolded in a sleepy town in the Oregon hills just before sunset. Then a circular disk flew over the Oregon hills and then made the sky go pitch black. All the people going home from work noticed that the sun had gone down way too fast, and were worried that the world was about to end.

Bob was a news reporter and he got some important news from the news station that it was not the world ending. It was actually an alien spaceship and he confirmed it by seeing the glare from the top of the spaceship. Then Johnny was walking home from his newspaper shop and he saw a 10ft tall oblong shaped creature floating down from the place above. Then Johnny called Bob and said "I think I have just seen an alien" then sent Bob a picture of the alien.

Then Johnny went home and informed his family then they went out to go and find this alien. Johnny's family was on an adventure for hours but after 10 hours they found the alien creature and then the alien walked up to Johnny's family at 0.1 km/ph and he said "I am your neighbour Robert remember" then Johnny's family said "Oh that's right."
